## MOUNT KENYA EXPEDITION PREFERS MELABON

Heavy snow falls and arduous work thousands of feet high on the rugged glacial face of Mount Kenya has been an outstanding testing ground for quick acting, safe, dependable Melabon.

Let the International Geophysical Year Expedition's choice be yours.

What do you think?  
Anyway, she didn't have the benefit of  
ASANI underwear to enhance  
her loveliness.*

*Remember, the lingerie you wear  
gives the poise and confidence  
that gives beauty to you.*

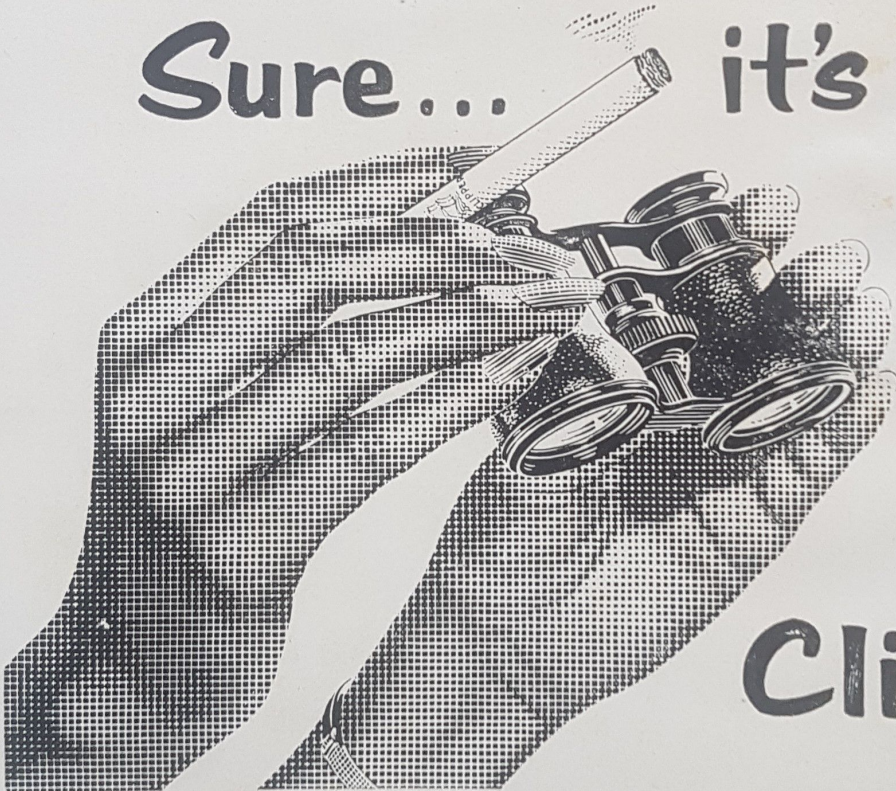

*ASANI is the answer and we have this fine  
lingerie here for you to see.*
